COUPLET

I'm gonna fight 'em off
They're gonna rip it off
And I'm talking to myself at night
Back and forth through my mind
A Seven Nation Army couldn't hold me back
Taking their time right behind my back
Because I can't forget
Behind a cigarette

BASCULE + REFRAIN

And the message coming from my eyes
Says, "Leave it alone"
Oh, oh, leave it alone
Leave it alone, oh, yeah
Oh, leave it alone

COUPLET

Don't wanna hear about it
Everyone knows about it
And if I catch it coming back my way
And that ain't what you wanna hear
Every single one's got a story to tell
From the Queen of England to the hounds of Hell
I'm gonna serve it to you, yeah
But that's what I'll do

BASCULE + REFRAIN

And a feeling coming from my bones
Says, "Find a home"
Find a home
Find a home, yeah, yeah
Find a home
